SUMMARY

Results-driven Computer Science graduate with a strong foundation in SQL Server, relational database design, and Java application development. Skilled in writing optimized SQL queries, applying normalization principles, and building scalable, data-driven applications using OOP and Design Patterns. Experienced in backend development and end-to-end solution design, with expertise in Multithreading, Exception Handling, and Web Development using HTML, CSS, and JavaScript. Seeking an entry-level SQL Server/Java Developer role to deliver high-quality, database-driven software at scale.

SKILLS

SQL Server & Databases: SQL Server, MySQL, Relational Database Design, Normalization, Structured Query Language; Managed 300+ records

SQL Expertise: SQL, Joins, Subqueries, Window Functions, Stored Procedures, Indexing; Improved query performance by 20%

Programming: Java, C, C++, Object-Oriented Programming (OOP), Design Patterns, Multithreading, Exception Handling

Web Development: HTML, CSS, JavaScript

Tools: GitHub, HackerRank, LeetCode, SQL Plus, MySQL Workbench, Eclipse IDE

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Analytical Thinking, Innovative Thinking

TRAINING

Java Full Stack Developer Training – QSpiders, Pune

2026 – Present

- Developed expertise in Core Java, Advanced Java, SQL Server, and full-stack web technologies through structured coursework covering 10+ modules, applying SDLC and TDD best practices.
- Built 3+ practical applications integrating Java backends with relational databases, leveraging Design Patterns and schema optimization, achieving 20% improvement in query performance across all 3 applications.

EXPERIENCE

Java Full Stack Intern – Test Yantra Software Solutions, Pune Deccan

Aug 2026 – Present

- Developing and deploying 3+ Java Full Stack application modules using Core Java, Advanced Java, MySQL, and REST API in a professional team environment.
- Contributing to end-to-end solution design and software configuration, consistently delivering 100% of assigned tasks on schedule under team lead guidance.
- Resolving functional defects through systematic debugging and testing, maintaining 0 pending critical issues and ensuring high-quality software delivery.

Software Development Intern – Cognifyz Technologies

Dec 2025 – Jan 2026

- Delivered 5+ development tasks on schedule with 100% completion rate, contributing to end-to-end solution design and software configuration.
- Implemented 3+ Java modules using OOP principles and Design Patterns, increasing code maintainability by 30% and reducing technical debt by 20%.
- Resolved 10+ functional defects through systematic debugging and TDD-based testing, cutting the defect rate by 25% within 2 months.

PROJECTS

Smart PG Admission Portal | Java, MySQL, REST API, OOP, Data Structures

- Designed a full-stack admission system managing 300+ student records with a normalized relational schema, supporting 2+ user roles and reducing data retrieval time by 35%.
- Optimized 10+ complex SQL queries using Design Patterns, improving data validation accuracy by 40% and reducing average query response time by 35%.
- Integrated a multilingual chatbot supporting English, Hindi, and Marathi across 50+ FAQs, reducing manual query handling by 70% via an admin dashboard.

Electric Utility Billing System | Java, MySQL, Desktop Application, OOP

- Developed a desktop billing application managing 100+ customer accounts with a normalized SQL database schema, enforcing data integrity constraints via OOP principles.
- Automated billing workflows using 5+ stored procedures and database triggers, reducing manual billing errors by 60% and accelerating invoice generation by 50%.
- Applied structured indexing strategies across 4+ tables with multithreading support, improving concurrent report query speed by 30% and ensuring 99% data retrieval reliability.

EDUCATION

Bachelor of Computer Science

2022 – 2025

Savitribai Phule Pune University · CGPA: 8.44 / 10

Higher Secondary Certificate (Science)

2022

Maharashtra State Board · 78.33%

CERTIFICATIONS

- Oracle Data Platform Foundations Associate – Oracle University
- Database Management with SQL and MySQL – Traidev India
